

Involve
the child with something.

When there is
more than one child,

involve them with each other
or a common object.

Make
connections.

Expression matters.

Get down

to their level.

You don't
have to

smile.

Hands:
if in doubt...

hide them.

Children:

When their feet show... take off shoes and-socks!

Simple props

Shoot when
the child turns
towards
the light.

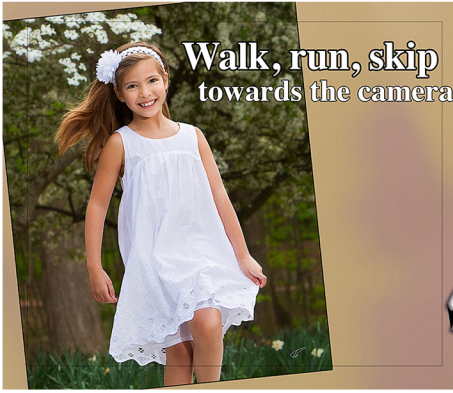

**Peek
a
Boo**

Spin

Pile ups

Walk, run, skip
towards the camera.
